Welcome to the neighbourhood and as SSR subscriber!
Information brochure

Engelsk

Inhabitants of the municipalities of Hareid, Ulstein, Sande and Herøy: it's us in SSR who handle your waste! We collect rest waste, paper and plastic packaging every 14th day from the households. You can deliver all other types of waste at specific recycling points or at one of the three SSR Recycling Centres.

Standard deal

Most households subscribe to the standard deal which includes 140 litre rest waste (Green container) and 240 litre paper (Blue container) Plastic packaging must be collected in blank sacks which are distributed every fall. Collection every 14th day. Price NOK 3.141,60 (NOK 3.927,- including VAT).

Large size household

If you need a bigger rest waste container (for instance when you have one or several babies using diapers) you may subscribe to the large size household comprising 240 litre rest waste and 240 litre paper waste. Collection every 14th day. Price 3.453,60 NOK (4.317 inclusive VAT).

Reduced fees

If by yourself or you produce very little waste you may subscribe to a reduced tariff with 140 litre rest waste and 240 litre paper. Collection every 4 weeks. Price 2.731,20 NOK (3.414 inclusive VAT).

SSR's Recycling Stations

Defect items too big to fit in the "Green container" must be brought to our Recycling Stations. We encourage everybody to hand in items that still are useful such as furniture, lamps, books and similar to 2nd hand stores, flea markets, jumbles or announce them for sale on finn.no.

Electrical and electronic waste (EE waste) can be handed in for free at shops who sell those kinds of goods. SSR do also receive EE waste free of costs from private customers. The same applies to private customers for most kind of hazardous waste and metal.

Opening hours for the Recycling Stations:

Saunesmarka (Ulstein and Hareid):
Mon - Thu: 10:00 - 17:30 and Friday: 08:00 - 15:00

Eggesbønes (Herøy):
Mon, Wed and Thu: 11.00-18.00

Larsnes (Sande):
Tue: 14.00 - 18.00

If you need to contact SSR, please call +47 70 00 70 50 or send an email to firmapost@reinhaltsverket.no

When and how is the waste collected?

The collection day may vary according to where you live and what zone you belong to. You will find precise information about this on our web pages www.reinhaltsverket.no, on our waste application or on the collection calendar which is distributed to all households.

You can install our waste application on Android or Apple Smart Phones. You can do this searching for "Min Renovasjon" at Apple Store and Google Play.

On collection day the waste containers must be placed by the closest road where the waste collection truck passes. Please contact us by telephone if you are not sure where to place your waste containers.

Plastics must be put in a blank, tied-up sack which you place by your waste containers. The waste containers must not be over filled and the lid must be closed. If you cannot fit all your waste you may purchase extra waste sacks printed SSR which you place by your container.
